The Meeting for Organization at the Congregational Church Yesterday Afternoon.

Trustees Elected by the Incorporators.-The Code of Regulations Regularly Adopted Method of Organizing the Ward Auxiliaries.

About twenty prominent ladies and gentlemen met at the Congregational church to permanently organize the Associated Charities. The meeting was called to order by President John Foos at 3 o'clock. The first business was the adoption of the code of regulations previously published in this paper. These provide for a board of twenty-four trustees, consisting of the nine twenty-four trustees, consisting of the nine poisoned by drinking eider drawn from a presidents of district or ward auxil-barrel through a lead pipe. iaries, the mayor, president of council, a township trustee and twelve others elected by the association. As the association was as yet composed of the incorporators, they proceeded to elect the incorporators, they proceeded to elect the police headquarters in Montgomery, Ala. twelve trustees as follows: W. She swallowed it bravely, wore an un-daunted front, and was among the first to offer hurried congratulations to the happy pair. The conversation turned Christmas gifts, and the bride said, laughing gayly: "All my wedwere sent just before Christmas, so on Christmas morning I had not a single gift." "Ah! my dear, that is cruel; you had me," said the bridegroom, reproachfully. Before the pretty bride could answer the widow's eves grew dangerous, and, swinging slowly her large fan, she murmured: "Surely, my dear Mrs. X., you should be more than satisfied, for you know antiquities are all the rage." In the awful silence following, the widow rose, carefully arranged her draperies and bowed her adisu in stately serenity. Dr. X. and his bride never returned her call.—Boston Heraid.

TRA CULTURE IN AMERICA.

A cup of tea, comforts the soul and gives gentle stimulus to brain and body, of many a hard working man and woman to whom its loss would come as a rea calamity. Happily there appears to be no danger of any such disaster. The Chinese supply holds up well, and if it should fail, why perhaps tea could be grown in this country. Commissioner of Agriculture LeDuc thought it could be, and though after the expenditure of many thousand dollars of Government money he didn't raise a crop sufficient to allow President Haves and the members of his cabinet to ask

for a second cup a-piece; still some future commissioner may have better luck. None of these conditions, however, ever distribed Mrs. Willis Magill, of 217 West tark street, Sandusky, Ohio, so much as severe attack of rheumatism, with which was a body willist at the way as heddy willisted. he was so badly afflicted that she could of raise a cup of tea to her mouth or pass ny of the soothing drink to the members the family. How she suffered and how he was cured she tells in the following ant of her own and of other cases: My rheumatism began in my left hand

el arm about two years ago and by Spring had complete control of me. I was quite roken down. I tried all the liniments and everything else that was ever tried or sed. Finally a New York paper was sent in which we saw an advertisement of Vhlophoros. As we were spending money or medicines all the time and nothing was loing any good, I thought a trial of the new remedy could do no harm. Even if it id no good the money might as well go hal way as any other, and so we sent for he Athlophoros. I began with a tea-poonful three times a day and I immedi-

tely began to feel better.
"I had not been able to touch a dishioth or lift anything, not even as much s the weight of a cup of tea to pass it cross the table. In one week's time after ginning to use the remely I could do segming to use the remeny I could do
oth almost as well as ever. There were
to more aches or pains. I used one bottle
and began on another, when I found I had
sed enough. I kept what was left in the ottle, and last week one of my neighbors ame in to ask me about my cure. I told r just how the Athlophoros acted upon ic, and said that if she was not afraid to it she might have what I had left. This as on Wednesday, and on the following anday she called in and said that her nes did not ache at all any more. I told r another bottle would cure her and she id she would get it.

Another lady came to me after I had all the Athlophoros about a week and anted information concerning it. She sight a bottle and it acted on her like a arm. She says that it benefited her more an anything she ever tried. A colored isherwoman, to whom I recommended it, is nerwoman, to whom I recommended it, iid to me: 'I done think it is drefful exensive, but I am going to keep on using I for it is cheaper than a doctor.' She used hree bottles and says that if she did not have to wash, by which she gets heated and hilled, she would be entirely cured. My bow still has a little lameness and I su fered from the rheumatism so long that I do not think the arm will ever be asstrong as it was before. I did every bit of my house-cleaning last Spring after using Athlophoros only a few days."

If you cannot get ATBLOPHOROS of your druggest, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefethat you buy it from your druggest, but if hasn't it, do not be persuaded to try somethin, else, but order at once from us, as directed ATBLOPHOROS Co., 112 Wall Street, New York
